FOR PAINT-UP CAMPAIGN.

Every city should have an annual paint-up campaign. March is a good time to begin, but April is the regulation time in this part of the country. Every building should have its new dress of paint annually, but the quality of the paint should be of the best. But if a year is allowed to pass by without this needed attention the alternate year at least should witness this "shining up." Paint not only heightens the esthetic attractiveness of a home, but it is a wonderful preservative. No economy is more obvious. Within the next few weeks all house painters should be working overtime.—Birmingham Age-Herald.

HOW PUBLIC UTILITIES SAVE CUSTOMERS MONEY.

When you consider the increased rates that you would be obliged to pay for fire insurance had not electricity and gas superseded the candle and the coal oil lamp, and since the telephone makes it possible to call the fire or police departments quickly, you will see that these public utilities really cost you nothing.

The fire risks of candles, matches, sparks from wood or coal fires, coal oil lamps, etc., lack of fire protection from organized fire departments make farm houses, barns, etc., prohibitive risks to fire insurance companies. The city property owner could not sleep if his property went uninsured over one night.

Fire insurance is regarded as a fundamental of business. The use of candles, coal oil lamps, etc., greatly increase the fire insurance rates. Electric or gas light, a telephone, greatly reduce rates of fire insurance.

Having electric light, gas, running water and a telephone, in your house means not only convenience but an actual saving of money.

ALPHA CLUB MEETING.

The ladies of the Alpha Club, with Mrs. W. H. Waters and little son as guests, met at the home of Mrs. Shields, Wednesday afternoon, March 22. Twelve members responded to roll call, "Favorite Hymns and their Authors." After the business session, which consisted principally of planning for the coming year, a very interesting and entertaining program was carried out.

A paper on "Music," Miss Fox. "Music in the Home," by Mrs. Shields, and a humorous reading, "Betsey and I are Out," and its sequel, "How Betsey and I Made Up," by Mrs. Gresham.

This was followed by the hostess, assisted by Mrs. Waters and Miss Fox, serving very dainty refreshments of ice cream and cake with hot coffee.

The club then adjourned to meet with Mrs. Anna Wells, Wednesday afternoon, April 5.—Club Reporter.

HIGH SCHOOL NOTES.

Because of the nice spring days last week, Mr. Thomas took his classes out on experimental excursions last Tuesday. The senior class went out to experiment on the rate at which sound travels. On Thursday morning the first division of the science class hiked to Coon Creek. The second division of the science class went on Friday morning. Both classes enjoyed their trips very much.

The final declamatory contest was given Friday night. Jasper won all six of the medals. Lucille Scott, Ruth Good and Lottie Stockdale were winners of the gold medals; and Inez Patterson, Elmo Maize and Lena Wiseman, the silver medals. Duenweg deserves much credit for her representation, and for the fine spirit manifested throughout the entire contest, "for when the last great test is made, it is written, not whether we have lost or won, but how well we played the game."

The juniors gave the assembly program last Tuesday morning. Mrs. Drummond gave two good readings which were enjoyed by everyone. Rev. Oscar Wright was present. The next program will be given by the sophomores.

Several are out of school because of pink-eye. Among those absent are Harley Hammond, Lynn Scott, Lottie and Ruth Stockdale.

The senior grades for the four years' work have been averaged to determine the honor students. Mildred Winans is valedictorian, and Samuel Wine is salutatorian. Elva Howrey. Marie Rosebaugh.

Money to Loan at 3 per cent

No Commission, Bonus or Compound Interest
Origin of Our 3 Per Cent Plan

Ours is not a new plan. It originated in Greenwich, England, in 1809. The largest company now operating is in Manchester, England, with a record of over \$50,000,000 of business written.

What the Supreme Court of Mo. says of our plan

The following is an extract from an opinion by the Supreme Court of Missouri with reference to the method of making loans as used by the

United Home Loan Depository, Kansas City, Mo.

"It will be noted that full provisions for the safeguarding of the rights of beneficiaries are made. It is shown by the best actuarial authorities in the state that the plan is financially sound. In fact, that is conceded by the pleadings in this case. When this is considered, in connection with further facts that the Trustees managing this trust, are, at all times, subject to a court of equity, and by virtue of section 10263 Supra, are under the constant supervision of the Supervisor of the Building and Loan Associations of Missouri it becomes difficult to conceive how stronger safe guards could be made to protect the public."

The above can be found in full detail in the Southwest Reporter advance sheet dated September 14, 1921—Pages 20-23.

Does this sound like a fraud or fake to you? Well it did not sound that way to your supreme court.
